

Sergé Xnix 0% Blackout (Only Zip Screens)

Specifications are purely indicative and may not be considered as binding.
Colours may vary from the samples shown.

Yarn

Technical specifications	Average values
Titer	165 tex
Weighted composition	Glass 41,5%, PVC 58,5%
Diameter	0.38 mm

Fabric

Technical specifications	Average values
Openness factor	0%
Thickness	0.6 mm
Mass	613 g/m ²
Fire resistance	M1 / FR / B1
Breaking strength	Warp 310 daN, weft 200 daN
Elongation at break	Warp 6,4%, weft 4.0%
Tear resistance	Warp 9,7 daN, weft 11,0 daN
Colorfastness (white excluded)	Blue scale grade \geq 7
Adhesion strength	Length direction 3.82 N/20 mm width direction 4.40 N/20 mm
Type of fabric	PVC-coated fiberglass fabric with a darkening coating
Weave pattern	Twill weave
Widths	2100 mm

Processing

Cutting	Crush or ultrasonic
Welding	Thermal, HF, ultrasonic, sewing
System	Only suitable for zip-systems
Cleaning	With lukewarm, soapy water
